ALLIANCE BIO EXPERTISE

Reference: TUWR3021 **A.B.E. - Technical Data Sheet**

Product: **Sterile Distilled Water**

Specification

Sterile destilled water for microbiology

Presentation

	Packaging Details	Shelf Life	Storage
20 Tubes Tube 16 x 113 mm with: 9 ± 0.2 ml	1 box with 20 tubes, 16x113 mm glass tubes, ink labelled and metallic cap.	16 months	8-25 ºC

Composition

Distilled water.....9.0 ml

Description /Technique

Sterile destiled water for microbiology.
Due to the low ionic strength of this liquid, the final pH range is not defined.

Quality control

Physical/Chemical control

Color : Transparent/colourless

Microbiological control

Not Performed - Only Sterility Test

Analytical methodology according to ISO 11133:2014/A1:2018; A2:2020.

Not Applicable

Microorganism	Growth
No aplica	

Sterility control

Incubation 7 days at 32.5 ± 2 ºC and 7 days at 22.5 ± 2 ºC: NO GROWTH.
