

DOSYWEL UPI!®

NEW GENERATION PERISTALTIC PUMP

 StepUpYourLab

 ALLIANCE
BIO EXPERTISE

DOSYWEL UP! is a multi-functional compact peristaltic pump, that provides a quick and accurate way of filling containers with agar, and any diluents.

- ✓ Precise
- ✓ Time saving
- ✓ Standardized
- ✓ Automatic traceability
- ✓ Lightweight and user-friendly

Step up your lab with automation !

1

Prepare the **media or diluent**

MEDIWEL®

ISO
11133

4.5.4 : The medium shall be poured into Petri dishes so as to obtain a depth of at least 3 mm. For 90 mm diameter dishes, 18 ml to 20 ml of medium are required.

2

Distribute the **media or diluent**

DOSYWEL®

ISO
7218

Culture media shall be distributed in a clean and uncontaminated environment. Use distribution methods that minimize the risk of contamination [...] The preparation conditions (temperature, stirring, etc.) must be controlled and documented.

DOSYWEL UP!®

NEW GENERATION PERISTALTIC PUMP

 StepUpYourLab

Multi-modes :

- Dosing (with defined volume)
- Multidose (with intervals), Footpedal or Hand dispenser
- Dispense with a fixed flow rate (for ex: 1L/min)
- Continuous distribution (Start/Stop)
- Concentrated media management
- Fast mode with 8mm tubing

Ergonomic :

- User friendly interface
- Light : 3.1kg

Semi-automatic distribution

Set up your lab to gain in efficiency. Use a time interval, a footswitch or a hand dispenser to limit handling

Compact & light

Light weight (3.1kg) and small footprint : optimise your bench space and easily lift it for cleaning

Calibration

Set up a calibration at the beginning of your program or after a defined number of doses dispensed to ensure a perfect distribution precision

Fast & Accurate

Up to 1 second for 9ml with 1% accuracy using 3.2mm tubing

Touchscreen

Operating system dedicated to microbiologists, for a reactive and intuitive access to programs

Full Traceability

Get the full traceability of distributions and calibrations with tickets, USB key, Labpage or LIMS

Delivered with the DOSYWEL UP!

User Manual, power chord, set of 3.2mm tubing with dispensing nozzle (ref : DOSW2003), quality control certificate and metrology report.

TECHNICAL DATA SHEET

Distribution	Manual, automatic, with footswitch or hand dispenser
Adjustable volume	0.1 to 9999.9 mL
Adjustable speed	5 - 100% / 10-450 rpm
Calibration	At the beginning of a cycle and/or after a selected number of doses
Dispensing modes	Dosing - Continuous - Flow rate
Interval	0.1 to 100 seconds
Rotation	Clockwise or Anticlockwise
Number of programs	Unlimited
Traceability	Ticket printer - USB key
Flow rate	2L / min maximum
Internal tube diameter	1.6mm / 3.2mm / 4.8 mm / 6.4mm / 8mm
Compacity (D x W x H)	253 x 160 x 250 mm
Weight	3.1kg
Electricity supply / Power	100 - 250V / 50 - 60 Hz / 120W
Warranty	1 year
Country of origin	France - European Union

DOSYWEL UP!®

Set up your workflow with a **footswitch** :

REF : DILW2013

Work easily
with the **hand dispenser** :

REF : DOSW2203

EQUIPEMENT - REAGENTS - CONSUMABLES
ADAPTED FOR INDUSTRIAL MICROBIOLOGY LABORATORIES

A CONNECTED EQUIPMENT GENERATION
FOR TRACEABILITY AND PRODUCTIVITY

MORE THAN 85 INTERNATIONAL DISTRIBUTORS
TRAINED TO THE LATEST A.B.E. TECHNOLOGIES

A DEDICATED AND EXPERIENCED TEAM
OF SERVICE ENGINEERS AND MICROBIOLOGISTS

**REPRESENTED IN OVER
85 COUNTRIES**
